Matilde has gathered over 20 years of experience in the field of business and technology consulting, with a particular focus on Enterprise Information Management, Document Management, and Knowledge Sharing. Her expertise in Document Management has been a cornerstone in her career. Leveraging her experience, Matilde has not only led projects from conception to fruition but has also developed customized, high-level solutions.

Her proficiency in automation, cognitive computing, and artificial intelligence (AI) has enabled her to conceive automated systems that enhance operational efficiency for businesses. Specifically, her knowledge of cognitive technologies and AI empowers her to design innovative solutions that optimize business processes, including document management.

She has shown excellent proficiency in implementing systems and processes that strictly adhere to the guidelines established by the Agency for Digital Italy (AGID). Her meticulous approach and in-depth understanding of regulations enable her to successfully lead document management projects, consistently ensuring compliance with the highest standards outlined in AGID's new guidelines. Additionally, she is an expert in Digital Preservation Compliance.

Beyond her technical skills, Matilde is recognized for her passion for educating and training colleagues and clients. As an advocate for continuous learning, she is dedicated to sharing her knowledge and skills with others. Her ability to simplify complex concepts and guide others through technical processes makes her an invaluable resource for training and development activities in the field of document management and technological innovation.
